

Black Key Train

Print and cut each card out (there's a few spares for any other game variations!).

These will be handled by little hands, so to make them easier to hold and last longer, you can print them on thicker card stock or laminate them.

Place the 'Train' on a group of black keys on the left side of the piano (it doesn't matter if it's a group of 2 or 3).

Let the student place the 'carriages' on the matching black keys; a '2' carriage on a group of 2 black keys, and a '3' carriage on a group of 3 black keys.
