

Teddy Bear Cards - Patterns of 3

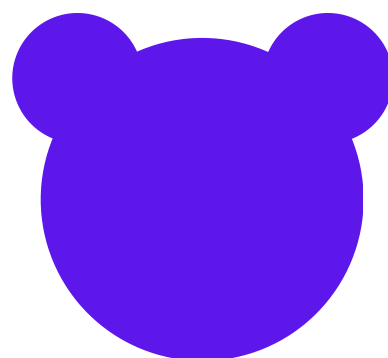

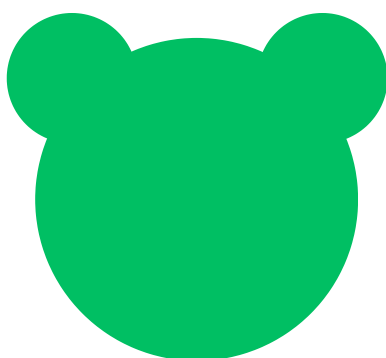

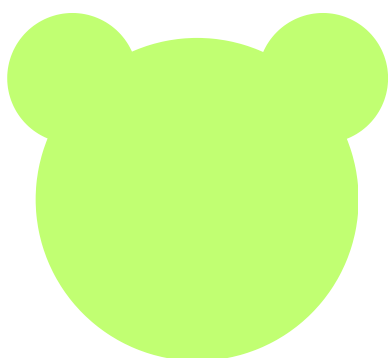

Print and cut each card out.

These will be handled by little hands, so to make them easier to hold and last longer, you can print them on thicker card stock or laminate them.

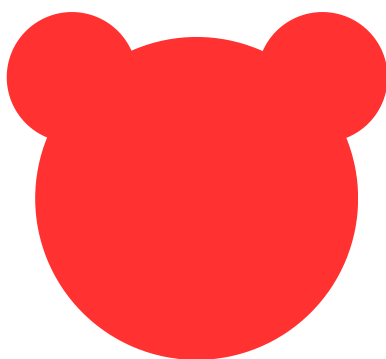

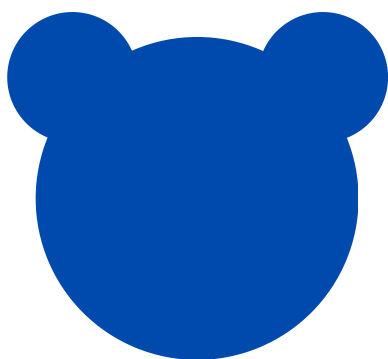

Stick the Teddy Bear Stickers on the piano keys, one sticker per piano key (They can be in any order, next to each other or all spread out across the keyboard).

Read each card and play the order of the coloured Teddy Bear pattern on the keyboard.
