# Musical Instrument Cards

Print and cut each flash card and circle out.

These will be handled by little hands, so to make them easier to hold and last longer, you can print them on thicker card stock or laminate them.

There are many ways to use these cards, depending on the age of those playing. You can:

1. Matching game: Match each circle to the flash card.
2. Memory game: Lay all the cards upside down and take it in turns to find matching pairs.
3. Sound game: you can sort the instruments into two piles based on sounds; strong and soft, high and low, etc.

Get creative!
